PHP	Accessibile Documents	

Volunteer

- Feb 2019 ● **Hackville Hackathon**
Students across the GTA to create, and solve a real-world challenge. The Sheridan Centre for Elder research to help come up with solutions around social isolation among older adults. Myself and Team members were able to finalize ideation and design that allowed me to move forward on front-end web development.
- Sept 2018 ● **Association of RGD Designathon**
Student RGD and Provisional RGD members take part in teams across Canada of 2 to 4 people supervised by senior design professionals to work on non-profit organization projects over a 12-hour period. The group was tasked with wire frames and hierarchy based on suggested style tiles from the lead student designer. Together we finalized the layout with our mentor for the day.
- June 2018 ● **Association of RGD Designathon**
Student RGD and Provisional RGD members take part in teams across Canada of 2 to 4 people supervised by senior design professionals to work on non-profit organization projects over a 12-hour period. The group was tasked with creating an English and French information booklet that could be easily navigated by public. I was able to take the lead creating adaptable layouts.
